FELITRON

Mais que headset.

Product Catalogue

Felitron 38 years

You have certainly heard of me. I have audio in my DNA. With it I create, develop and bring to life my products. But much more is required – one has to reinvent himself every day. In the last 3 decades I have been working to transform my customers into my fans, and that has made me a reference...

Please check out our Manifest.

Voice and Music

For the person who wants a headset for calls and videos, with Super Bass HD audio to listen to his favorite music.

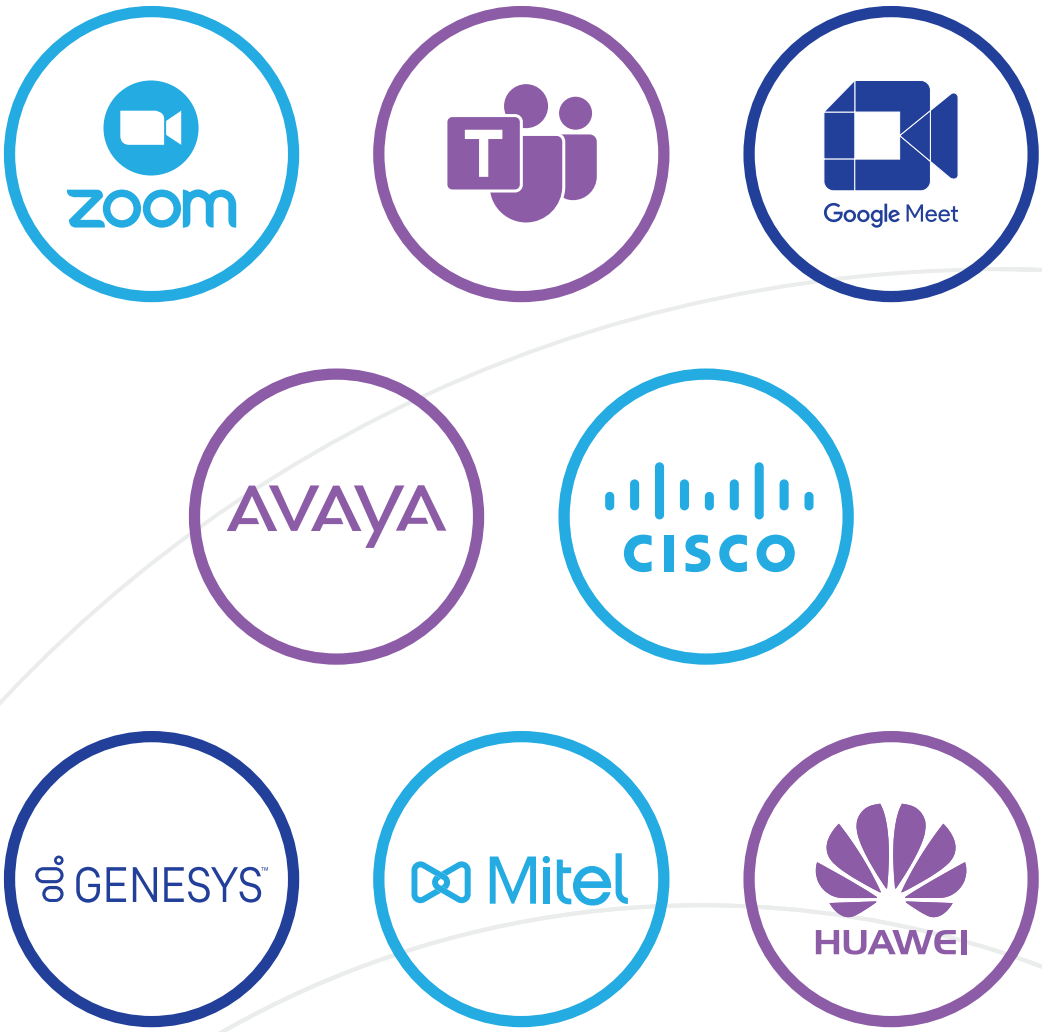
Strategic Alliances



Felitron has strategic alliances with the major telecommunications manufacturers, which have tested, approved, and certified that Felitron headsets are fully compatible to the majority of desk phones, softphones, and unified communications systems in the market.

Besides the certifications and approvals that guarantee total interchange between solutions and maximum performance, the proximity of the engineering teams of Felitron and our technological partners guarantee a perfect integration between existing solutions and future product launches.

For more information regarding partnerships, approval documents, and product compatibility please visit www.felitron.com.
